Relevant Experience

Web Developer @ Avanza Digital / Website
Oct 2020 - Present // Herndon, Virginia

- Produced client and server-side validation using AJAX and PHP, to allow users to send emails securely which resulted in the reduction of spam by 70%.
- Successfully identified, diagnosed, and fixed website problems including, bugs in the server-side form validation, broken links, typographical errors, and formatting issues.
- Helped achieve a consistent look and visual theme across the website by promoting uniform forms, formatting, images, and layout.

Software Engineer Intern @ Ziplyne / Website
Oct - Nov 2020 // Remote

- Created an animated SVG loader that helps with client retention while the page is being loaded.
- Implemented an intuitive and highly responsive UI with React, CSS, and JavaScript.
- Authored Ziplyne's homepage and delivered a high-quality product in line with the team's expectations.

Web Developer - Contract @ Business Cyber Shield / Website
Jul - Aug 2020 // Reston, Virginia

- Executed custom form validation to allow users to send emails securely which resulted in gaining 4 prospective customers in the first month.
- Tested site in various browsers and devices to ensure cross-browser compatibility and responsiveness.
- Developed and shipped a single page web application to Godaddy Servers.

Cheffed - Creator / Github
May 2020 // Washington D.C.

- Utilized JSON Web Tokens and LocalStorage to store encrypted user information and to persist authenticated user credentials.
- Integrated full CRUD functionality to allow users to manage their dishes and to accept or decline requests from clients.
- Effectively architected a RESTful Ruby on Rails API interacting with a React frontend.

iTeller - Pair Programming / Github
Sep - Oct 2020 // Herndon, Virginia

- Worked in a team of two to create a financial budgeting app that helps users keep track of their income and expenses, by allowing them to create, read, update, and delete transactions. Utilized Ruby on Rails and React.js, follow Agile methodologies specifically kanban.
